

Mouhamed Aziz Mejri

Software Developer

✉ medaziz.mejr@gmail.com ☎ +216 94 498 865 🌐 www.linkedin.com/in/mejri-mouhamed-aziz/

Results-driven Software Developer with a strong foundation in Java, C#, and Python (PCAP – Certified Associate in Python), complemented by practical experience in Angular. Proven ability to design, develop, and maintain scalable back-end systems and intuitive web applications. Skilled in delivering robust, high-performance solutions and collaborating effectively within agile, cross-functional teams. Committed to expanding expertise in back-end development and contributing to innovative, impactful projects.

Experience

- **End-Of-Studies internship :** 2024
Internet Smart Solution (BEE), Charguia 1
Name : Conception and Development of a web Application for automation and monitoring of applications and servers
 - Delivered real-time updates to system performance through Angular dashboards, leading to quicker issue identification which improved troubleshooting times by an average of 15 minutes per incident reported during peak hours.
 - Developed secure and scalable client-server interactions through the integration of RESTful APIs using Java / Spring Boot, resulting in reduced response times to under 200 milliseconds for critical system queries.
 - Developed a MySQL database that securely managed sensitive application data, enforcing data integrity protocols and leading to zero data breaches over a continuous monitoring period of 12 months .
 - Collaborated in daily Agile stand-up meetings, contributing to progress discussions, resolving challenges, and planning tasks to meet project milestones.**Technologies Used:** Java / Spring Boot/ Angular/ Git / Github / Postman/ MySql
- **Initiaion internship :** 2023
Internet Smart Solution (BEE), Charguia 1
Name :Bee Sms Project
 - Designed and implemented a scalable application architecture with Java , Spring Boot, Angular and MySQL, supporting over 5,000 active users seamlessly without performance degradation.
 - Created the SMS sending module, optimizing message delivery speed by integrating SMS gateways and reducing message delivery time by 50%.
 - Implemented real-time SMS status monitoring, enhancing system transparency and user trust, contributing to a 15% increase in user engagement within the first quarter of launch..**Technologies Used:** Java / Spring Boot/Angular /Postman/MySql/Kafka

Education

- **TEK-UP University** 2024-present
 - IT Engineering
- **Higher Institute of Applied Sciences and Technology of Mateur(ISSAT),Mateur, Bizerte** 2024
 - Bachelor Degree in Computer Science and Software Engineering

Skills

- **Web Development :** Html/Css/JavaScript
- **Back-End :** Java / Spring Boot/Python / FastApi
- **Front-End :** Angular / Figma
- **DataBase Management :** MySql
- **Version Control:** Git / Github
- Analytical and Problem-solving
- Communication / Team Work
- Time Management

Certifications

- Certified Associate Python Programmer (PCAP) , Python Institute 2025

Languages

- Arabic :Native
- French : Professional
- English : Professional
